

Ordering Procedure – Yard & Customer Orders

1. Yard Orders (Stock Replenishment)

- **Minimum order:** 7 pallets per yard order for free delivery into yard.
 - **Lead time:** Minimum **1 week turnaround** from order placement.
 - Yard orders must be planned in advance to meet minimum quantities and delivery schedules.
 - When placing a yard order, always include any paid customer yard orders for pick-up to ensure correct allocation of stock.
-

2. Customer Orders – Direct Deliveries

- **Primary transport provider:** Pageys Transport
 - **Delivery days:** Tuesdays and Thursdays
 - Customer deliveries are consolidated and scheduled to align with Pageys' delivery runs.
 - Orders must be finalised and confirmed prior to cut-off to meet scheduled delivery days.
-

3. Customer Orders – Outside Pageys Delivery Areas

- For deliveries outside Pageys' service areas, alternative freight providers may be used.
 - **Approved alternative freight:** Apex Masonry (or similar)
 - Staff must **contact the freight company directly for pricing and availability** before confirming the sale with the customer.
-

4. Direct Deliveries & ETA Confirmation

- If a customer requires **delivery date or ETA confirmation prior to sale:**
 - Contact **Pageys Transport directly** to confirm availability and delivery timing.
 - Record the advised delivery date in the comments section of the Purchase Order, noting that the date was advised by Pageys.
-

5. Staff Responsibilities (Critical)

- Always confirm **minimum quantities and lead times** before committing to a sale
 - Ensure **customer pick-ups are included in yard orders where applicable**
 - Clearly communicate **delivery days and limitations** to customers
 - Accurately record **freight confirmations and delivery notes** on all P/Os
-
