

STOCK QTY – PRODUCT LOOK UP TOOL

Please find below the set up of a Product Lookup Tool to help you quickly check Stone & Outdoor stock levels:

 <https://chrislookup.github.io/productfind/>

How to Use It

1. Open the link above in Firefox.
2. In the search bar, type the product name or product type or colour (e.g. “Crazy Pave”, “French Pattern”, “Ivory” etc.).
3. The results will show:
 - Quantity in stock
 - How the product is sold – Each, Layer (for crazy pave), or Set (for French pattern).

The QTY will appear the same as it’s sold in Retail Manager

How to Save It to Your Desktop (Firefox)

1. Open the link in Firefox: <https://chrislookup.github.io/productfind/>
2. Click the three lines (≡) in the top-right corner of Firefox.
3. Select “Save Page As...”
4. Choose your Desktop as the save location.
5. Click Save.
6. You’ll now see a shortcut on your desktop – double-click it anytime to open the tool.

A Few Important Notes

- Stock updates every few days, not daily.
- The tool doesn’t include:
 - Orders on hold
 - Shipments still on the way
 - Recently sold items
- Use it as a guide – it’s great for getting a general idea, especially over the weekend.
- Always check with John for the most accurate and up to date stock info
